

Who's who

Everyone knows who is he/she

I don't know who are you

And you don't know who am I

I am not being known by anyone

He/she isn't being known by his/her name

Everyone knows who her/him-self bad or goodness

Then people never know together

No interacting with each other

and they lose their benefits through those having a proof union

mislay, misplace, misjob, misfile, misgiving, miss and miss

they are suffering for losing, waste, go in the wrong direction

or become less effective or valuable, diminish and less

then don't say that you know me and another

everyone knows him/her-self no doubt

don't get beguile your-self never

because, nobody gets beguile by such saying never
